

PROFILE

US and French Citizen with a background in Mathematical Physics. Seeking a dual-track opportunity that leverages advanced stochastic modeling and mathematical physics, open to both Quantitative Research roles and part-time PhD pathways focused on complex systems and financial dynamics to apply advanced stochastic methods, including Lévy processes, to complex financial systems. Rank 4th in a competitive international Master's program with a focus on high-level theoretical physics and mathematical modeling.

EDUCATION

Master's Degree (M2) Math4Phys in Mathematical Physics (International Master's)
Université de Bourgogne Europe

2025 - 2026

Relevant courses : Riemann surfaces, algebraic geometry, Lie groups and Lie algebras, quantum field theory, general relativity, path approach in quantum field theory, cohomology of algebraic varieties, Hilbert schemes and moduli spaces.

Projects : research master's thesis on Lévy processes applied to financial models.

Ranking : 4/25

[Master's page](#)

Master's Degree (M1) Math4Phys in Mathematical Physics (International Master's)
Université de Bourgogne Europe

2024 - 2025

Relevant courses : partial differential equations, differential geometry, functional analysis, classical mechanics, quantum mechanics, stochastic methods (Grade: 15.25/20 – Top of class / High Honors equivalent, Financial Mathematics, Probability Theory)

Projects : research master's thesis on binary black hole solutions of the Ernst equation.

Ranking : 4/15

[Master's page](#)

Bachelor's Degree (L3) in Pure Mathematics
Université de Bourgogne Europe

2023 - 2024

Relevant courses : differential calculus, topology, algebra 2, functional analysis, probability

Ranking : 6/50

Preparatory class for Grandes Ecoles (CPGE) PCSI/PC
Lycée Carnot Dijon

2021 - 2023

Two-year intensive program preparing for national competitive exams for admission to top engineering schools.

Followed courses : mathematics, physics, chemistry.

SKILLS

Mathematics 8+ years

Physics 5+ years

Chemistry 5+ years

Spanish 3+ years

Coding 5+ years

LEISURE

Hobbies

- Sports : football and weightlifting
- Chess : Elo 1800
- Cinema
- Thorough reading of scientific articles
